

# Helping Homeowners And Their Families Navigate The Home Sale Process

Selling a home during a major life transition can be difficult. My goal is to step in with care and a clear plan so the Homeowner or their Family can focus on the more personal and important matters.

I take time to understand the Home and your goals, then create a personalized plan to address what may be needed to prepare the Home for the market - keeping the process organized and low-stress.

Using the right approach, what initially feels daunting and overwhelming can become a smooth, manageable series of steps leading to a successful sale. I'm here to ensure the process is handled with respect, efficiency, and peace of mind.

## A Few Key Focus Points

### Strategic Pricing

The right price creates urgency and attracts serious, qualified Buyers who have been actively searching for homes.

### Professional Presentation

Buyers tend to make emotional decisions based on 1<sup>st</sup> impressions – Professional Photos, Video, 3D Tours, & Drone Images directly impact their ability to envision ownership.

### Showing Strategy

It's a demand on your schedule to keep your home "Tour Ready", but it makes a real difference to Buyers. I'll help with the preparation before showings.

### Repairs Or Updates

That Can Help a Buyers overall opinion of the Home (*I Am Also A Licensed Home Inspector, So I Can Provide Some Insight Here*) I can assist you with speaking to contractors and other service providers.

### E-Signatures

Digital signatures can be tricky, I'm happy to hand-deliver any documents that need signing and provide physical copies for your convenience

### Packing & Storage

Packing and storage plans save time and stress. I can help you organize, prioritize, and decide which items to store, sell, donate, or possibly convey to the Buyer.

### Maximizing Exposure & Marketing

Using Geotargeted Advertising & Buyer Interests. Your home needs to stand out where the right Buyers are actually looking, not just sit on the MLS.

### Guaranteed Offers

They're not for everyone, but offers from investors can be helpful when a quick sale is needed. I can help you find and negotiate these offers.
